

Real time data integrity and print quality inspection for mail processing, secure printing and label inspection applications.

Discovery MultiScan is the latest generation of Print and Mail Integrity Solutions from Lake Image Systems. Based on our new Discovery platform it leads the way in performance, ease of use and flexibility.

Our MultiScan Manager pulls together the images and data from a wide variety of camera and scanner based technologies and allows the implementation of any number of Discovery software tools to read, control, inspect, verify, log and report – providing 100% quality inspection and print data integrity.
